

Class Statistics

Jesse Giacomini

APPENDIX: Class Statistics

Let's do some research to learn about our class. Please read the following statements and see if you agree with the percentages I've estimated. Then, each student should choose one sentence, change the statement into a question and survey everyone in the room. Please ask follow-up questions and keep detailed records of the results so you can present your research to the class.

I bet/I'm guessing that . . .

1. _70_% of us take public transit to school.
2. _10_% of us is vegetarian or vegan.
3. _90_% of us enjoy watching movies.
4. _80_% of us use cell phone apps to study English.
5. _60_% of us work out every day.
6. _30_% of us say that red is our favorite color.
7. At least _25_% of us listen to podcasts and/or the radio in English.
8. _30_% of us know words/phrases like "cultural capital," "consumption," and "socioeconomic status."
9. _70_% of us have a job now.
10. _70_% of the class goes to the beach regularly.
11. _30_% of us have traveled to five countries or more.
12. _40_% of us prefer to only shop online and not go to the store in person.
