

Level 2

Prediction 1:

I think the water will change into a _____ when it boils.

Liquid

gas

solid

Observation 1:

In the _____ phase, first the water was a _____.

evaporation

condensation

liquid

solid

Then, it changed to a _____ when it boiled.

solid

gas

Prediction 2:

I think the steam will change into a _____ when it cools.

liquid

gas

solid

Observation 2:

In the _____ phase, first the steam was _____.

evaporation

condensation

gas

solid

Then, it changed to a _____ when it cooled.

solid

liquid
