Careful preparation of your package helps to ensure safe delivery. Choose a box with enough room for cushioning material around the contents. You can purchase boxes and tubes of various sizes at most Post Offices. Select Priority Mail Express and Priority Mail boxes are available free at the Post Office for items sent using either of these services. Place cushioning all around your item or items. You can use newspaper, “foam peanuts,” or shredded paper. Close and shake the box to see if you have enough cushioning. If you hear items shifting, add more cushioning. Tape the opening of your box and reinforce all seams with 2-inch-wide tape. Use clear or brown packaging tape, reinforced packing tape, or paper tape. Print or type your address in the upper left corner on the same side of the package as the delivery address. Print or type the delivery address parallel to the longest side of the package. Type or print clearly with a pen or permanent marker so that your address is legible from an arm’s length away. Do not use commas or periods.
